

# **Product Name :**

### Stethescope

## **Product Code :**

"SCL1411/04"

# **Description :**

#### **DESCRIPTION** :-

• The stethoscope is an acoustic medical device for auscultation, or listening to the internal sounds of an animal or human body.

• It typically has a small disc-shaped resonator that is placed against the chest, and two tubes connected to earpieces.

- It is often used to listen to lung and heart sounds.
- It is also used to listen to intestines and blood flow in arteries and veins.

• In combination with a sphygmomanometer, it is commonly used for measurements of blood pressure.
