Description :

Thermometer Alcohol (Product Code: SCL343/070) is a graduated glass laboratorythermometer used to measure temperatures from ?10 to 110 °C in school, college and researchpracticals. Its alcohol-type filling covers everything from ice mixtures to boiling water, so a singlethermometer handles water baths, enzyme experiments and field readings on the school biologylab bench. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEMmanufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Alcohol thermometer
Range	?10 to 110 °C
Material	Glass
Scale	Graduated
Application	Laboratory use
Product code	SCL343/070
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Alcohol Thermometer Used For?

Because the scale runs a little below freezing and a little above the boiling point of water, the thermometer suits a wide spread of experiments: holding water baths at set temperatures to study how temperature affects amylase activity, checking that a bath is hot enough for Benedict's test, recording pond-water temperature on an ecology survey, following the warmth given off by germinating seeds, and plotting the boiling point or cooling curve of water in chemistry.

For an accurate reading, immerse the bulb fully without letting it touch the sides or bottom of the vessel, wait until the column stops moving and read at eye level. Check before each class that the liquid column is continuous, never take it above 110 °C, and avoid moving it straight from hot liquid to cold. Store it in a case or rack so the stem is not knocked; if one does break, there is only glass to clear up, with no mercury involved.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM (original equipment manufacturer) of this alcohol thermometer. It is produced at the company's own licensed factory at Saha, Ambala, Haryana, India, and supplied factory-direct to schools, colleges, institutions, dealers and importers, so quotations and repeat orders come from the maker itself rather than a middleman. For vendor registration, institutional buyers can record the company's GSTIN 06AAFCJ8618A1ZT and Legal Entity Identifier 335800HJRD1JIVYKXY49.
