Product Name :

Interlocking Cubes

Product Code :

SLE/MAT/41

Description :

Interlocking Cubes help students develop abstraction sense.

They are also used to develop an understanding of number and measurement concepts.

The variety of colors allows cubes to be used in probability experiments.

Students will use cubes to create, identify and extend patterns.

Linking cubes together helps in hand-eye coordination.

Great for sensory development, occupational therapy and autistic children.

Length: 2 cm

Width: 2 cm

Height: 2 cm
