Description :

Animal Cell & Plant Cell (Product Code: SCL471/0191) is a laminated biology wall chart used to compare the structure of animal and plant cells in school classrooms and laboratories. It supports one of the first topics in school biology — the shared nucleus, cytoplasm and cell membrane, and the cell wall, chloroplasts and large vacuole found only in plant cells — on a 75x100 cm polyart sheet. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Chart
Topic	Animal cell and plant cell
Material	Polyart
Size	75x100 cm
Finish	Laminated
Used in	Schools and laboratory
Product code	SCL471/0191
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Animal Cell & Plant Cell Chart Used For?

Teachers typically put the chart up while introducing cell organelles, then return to it during the microscope practical in which students prepare an onion peel mount and a cheek cell mount. Because both cell types are covered on one sheet, students can build their comparison table in the same lesson, checking each organelle and deciding whether it belongs to one cell type or both.

Pairing the chart with a three-dimensional animal cell model or plant cell model helps students who find flat diagrams hard to picture. The laminated polyart surface can be wiped with a soft, slightly damp cloth, and rolling the chart loosely rather than folding it keeps it flat for display. It is often the first sheet in a school biology chart set.

OEM Manufacturer

ScienceLab is the OEM (original equipment manufacturer) of the Animal Cell & Plant Cell chart. **Jain Scientific Equipments Private Limited**, which trades as **ScienceLab**, produces its charts, models and laboratory apparatus at its own licensed factory at Saha, Ambala, Haryana, India, instead of sourcing them from a trader. Schools, colleges, institutions, dealers and importers are supplied factory-direct, and repeat orders for further classroom copies are handled by the manufacture
