Description :

Ascaris (Roundworm) (Product Code: SCL479/0204) is a laminated wall chart used to teach *Ascaris*, the large intestinal roundworm that serves as the type example of the nematodes in school and college zoology. Because *Ascaris* is also a common human worm infection where sanitation is poor, the 75 x 100 cm polyart chart supports both classification and health-education lessons. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Chart
Organism	Ascaris, roundworm (Nematoda)
Material	Polyart
Size	75 x 100 cm
Lamination	Yes
Where used	Schools and laboratories
Product code	SCL479/0204
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Ascaris Roundworm Chart Used For?

In the classification unit, *Ascaris* shows students what makes a roundworm different from a flatworm: a long, cylindrical, unsegmented body tapering at both ends; a fluid-filled body cavity (the pseudocoelom); and a complete gut running from a mouth surrounded by lips to a separate anus. The sexes are separate, and sexual dimorphism is easy to point out — the male is smaller, with a curved hind end, while the female is larger and straight. These comparison points are why the chart is often hung next to the liver fluke and earthworm charts.

The same chart supports a health-education discussion. Eggs passed in the faeces of an infected person contaminate soil, water or food; once swallowed they hatch in the intestine, and the larvae travel through the blood to the lungs before returning to the gut to mature. Asking students to identify where hand washing, clean water and proper toilets break this chain turns the zoology lesson into practical hygiene advice, which is why schools include it among their biology teaching aids for the middle and senior years.

OEM Manufacturer

Jain Scientific Equipments Private Limited, which trades as **ScienceLab**, manufactures the *Ascaris* (Roundworm) chart as the OEM (original equipment manufacturer) at its own licensed factory at Sector 15, Ambala, Haryana. For more information, contact us at sales@scilabexport.com or call +91-7082934803. We also supply charts to schools, colleges, and research institutions, and we can provide custom charts for specific requests such as extra text or images.
