Description :

Human Digestive System (Product Code: 489/0213) is a laminated wall chart used to teach how the body breaks down food and absorbs nutrients, from the mouth to the anus, in school biology and human biology classes. Its large 75 x 100 cm polyart format lets the teacher show the whole class the long alimentary canal and the glands that feed into it. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Chart
Topic	Human digestive system
Material	Polyart
Size	75 x 100 cm
Finish	Laminated
Used in	Schools and laboratories
Product code	489/0213
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Digestive System Chart Used For?

Teachers normally follow a mouthful of food along the alimentary canal. Teeth and saliva start the process in the mouth, the oesophagus moves food to the stomach by peristalsis, the stomach churns it with acid and enzymes, and the small intestine completes digestion with bile from the liver and gall bladder and juice from the pancreas. The inner surface of the small intestine, folded into finger-like villi, is where most nutrients are absorbed, before the large intestine reabsorbs water and waste leaves through the rectum and anus.

The chart also supports practical and health topics: a starch-and-iodine test to show the action of saliva, the role of fibre in a balanced diet, and dental care as the first step in healthy digestion. In a school biology lab setup it is usually displayed with a digestive system model, so students move from the flat diagram to organs they can pick up and turn over.

OEM Manufacturer

ScienceLab is the brand of **Jain Scientific Equipments Private Limited**, the OEM manufacturer of this Human Digestive System chart. The chart is made at the company's own licensed factory at Saha, Ambala, Haryana, India, so schools and distributors buy from the source instead of a trading intermediary, and repeat or replacement orders go back to the same maker — ask us whenever you need them. Details are on the company profile.
