Description :

Human Circulatory System (Product Code: SCL492/0216) is a laminated wall chart used to teach how the heart and blood vessels carry blood around the body, including double circulation, in school and laboratory biology lessons. At 75 x 100 cm on polyart, it gives a whole class one large picture of the pathway from the heart to the lungs and body and back. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Chart
Topic	Human circulatory system
Material	Polyart
Size	75 x 100 cm
Finish	Laminated
Used in	Schools and laboratories
Product code	SCL492/0216
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Human Circulatory System Chart Used For?

Put the chart up before a lesson on transport in animals so that every desk can see it. Students follow blood from the body into the right side of the heart, out to the lungs, back to the left side and away again through the arteries, which makes double circulation far easier to grasp than a small textbook figure. Many teachers leave it on the wall during a pulse-rate or blood-pressure practical so each reading can be linked back to the pumping action of the heart.

The chart pairs naturally with three-dimensional material: introduce the heart and main vessels on the wall, then pass round a heart model so students handle the same structures, a common sequence in heart model anatomy lessons. Wipe the laminated surface with a soft, slightly damp cloth, and store the chart flat or loosely rolled, away from direct sun and heat.

OEM Manufacturer

This chart is an OEM product of **Jain Scientific Equipments Private Limited**, better known by its trading name **ScienceLab**. It is made at the company's own licensed factory at Saha, Ambala, Haryana, India, and goes factory-direct to schools, colleges, institutions, dealers and importers, so buyers deal with the manufacturer for pricing and for any repeat order.
