Description :

Laboratory Technique Chart (Product Code: SCL-545/022) is a classroom-sized 75 x 100 cm wall chart used to teach and reinforce correct practical technique in school and college laboratories. Teachers use it as a visual briefing before students handle apparatus, and its colour print on poly art plastic sheet has a weather-proof, washable and markable surface with a plastic roller. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Subject	Laboratory technique
Size	Classroom sized, 75 x 100 cm
Print	Coloured, on poly art plastic sheet
Mounting	Fitted with plastic roller
Surface	Weather proof, washable and markable
Product code	SCL-545/022
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Laboratory Technique Chart Used For?

Good technique is easier to learn from a picture than from a paragraph in a practical manual. Teachers hang this chart near the practical benches and use it as a quick briefing before a new experiment, pointing out how the apparatus should be set up and handled, then leave it on view so students can check their own method as they work. It saves repeating the same demonstration to every group, and it belongs on the list for any new lab setup in a school.

Because the surface is markable, the teacher can circle the part of the chart that matches the day's practical and wipe it clean afterwards. The weather-proof sheet can be wiped with a damp cloth when dusty, and many labs hang it next to a safety chart of the same size so that technique and safety are presented together.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab from Ambala, Haryana, supplies the Laboratory Technique Chart as part of its range of chemistry wall charts and teaching aids. For vendor registration, the supplying company is Jain Scientific Equipments Private Limited (CIN U29309HR2020PTC087597, GSTIN 06AAECJ8618A1ZT).

Schools, colleges and distributors in India and international markets can combine the chart with apparatus on one quotation. See our company profile for more.
