## Description :

**Corks** (Product Code: SCL-583/041) are brown wooden corks in size 3, used in the laboratory to close tubes, flasks and bottles whose mouths match that size, and, once bored, to hold thermometers, glass tubing and delivery tubes in assembled apparatus. They are an everyday companion to chemistry lab glassware in school and college practical rooms, where closures are constantly lost, worn or bored for new set-ups. The corks are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

### Specifications

| Parameter | Detail |
|---|---|
| Model No. | SCL-583/041 |
| Size | 3 |
| Material | Wood |
| Colour | Brown |
| Use | Laboratory closures and apparatusassembly |
| Packquantity | Not stated; quoted to your requirement |

### Typical Use

To pass a thermometer or glass tube through a cork, bore a hole with a cork borer slightly smaller than the tube, working from the narrow end with a steady twisting action. Wet the glass with water or a little glycerine, protect your hand with a cloth, and push the tube in with a gentle twisting movement while gripping it close to the cork, never by the far end. A cork that is rolled lightly under the palm on the bench before use becomes a little softer and seals the mouth of the vessel better.

In a simple gas collection apparatus, a bored cork holds the delivery tube firmly in the neck of a flask or boiling tube so the gas is led to the collecting jar. Wooden corks can char if they are held close to a flame and can absorb some liquids, so replace any cork that is charred, cracked or stained. Where a tighter, airtight seal is required, a rubber cork of matching size is the better choice.

### Supplier

ScienceLab is the name under which Jain Scientific Equipments Private Limited of Ambala, Haryana, supplies laboratory consumables such as these corks. For vendor registration, its GSTIN is 06AAECJ8618A1ZT, and it exports to international markets under Importer-Exporter Code AAECJ8618A from the DGFT, while also serving institutions across India.
