Description :

The **Label Book Sticker Type** (Product Code: SCL-634/065) is a book of white self-stick labels for identifying reagent bottles, glassware, sample containers and specimen jars. Clear labelling is basic good practice in any laboratory: it prevents mix-ups between look-alike solutions and tells the next user what a container holds. The label book is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a lab consumables supplier in India serving laboratories and schools.

Key Details

Parameter	Detail
Type	Sticker-type labels
Supplied as	Label book
Colour	White
Purpose	Labelling bottles, glassware and containers
Suitable for	Laboratories and schools

Typical Use

Lab assistants use the labels when preparing bench reagents — each bottle should carry the name of the solution, its strength, the date it was made and any hazard warning. Teachers use them to number test tubes and beakers for a class experiment, to mark unknown samples for salt analysis, and to identify specimen jars and slide boxes in the biology room. A well-labelled store is also quicker to audit and restock, which is why a label book belongs in every school chemistry lab equipment list.

Stick the label on a clean, dry surface and press it down firmly from the centre outwards. Write with a ballpoint pen or a permanent marker, and if a bottle is handled with wet hands or near solvents, cover the label with clear tape so the writing stays readable. Remove old labels before applying a new one rather than sticking over them.

Supplier

The label book is supplied by **Jain Scientific Equipments Private Limited**, the company behind the **ScienceLab** brand, based in Ambala, Haryana, India. Details of the business are on our company profile.

Related Laboratory Equipment

Containers and storage that the labels are most often used on:

- Reagent Bottles For Liquids — bench bottles for prepared solutions
- Reagent Bottles For Solids — wide-mouth bottles for salts and powders
- Reagent Racks — keep labelled bottles in order on the bench
