Product Name :

Research Pipettors

Product Code :

SLE/ME/13

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Research Pipettors (Product Code: SLE/ME/13) are adjustable-volume micropipettes used to measure and dispense microlitre volumes of liquid in biology, biotechnology and research laboratories. They are offered in four ranges, from 0.5–10 µL up to 20–200 µL, and pair a slim, ergonomic handle and low pipetting forces with a highly durable, UV-resistant shaft and an in-lab recalibration system. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India.

Specifications

Parameter	Detail
Volume ranges	0.5 to 10 µL; 2.0 to 20 µL; 10 to 100 µL; 20 to 200 µL
Handle	Slim, comfortable, ergonomically designed
Pipetting force	Low
Shaft	Highly durable, UV resistant
Recalibration	In-lab recalibration system
Product code	SLE/ME/13
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Research Pipettors Used For?

These pipettors handle the small, precise volumes that modern life-science practicals depend on: preparing serial dilutions, setting up enzyme assays, mixing PCR reactions, loading electrophoresis gels and adding reagents to microcentrifuge tubes. The four ranges let a lab cover everything from a fraction of a microlitre to a couple of hundred microlitres, making them a core part of microbiology lab equipment in teaching and research settings.

Choose the smallest range that covers the volume you need, set the volume within that range, and fit a fresh tip for every sample. Pre-rinse the tip once, hold the pipettor upright while aspirating, and release the plunger slowly so no air bubbles form. Low pipetting forces reduce thumb strain in long sessions, and the UV-resistant shaft suits work areas where UV lamps are used between runs.

What to Specify When Ordering

- Which range or ranges you need: 0.5–10, 2.0–20, 10–100 or 20–200 µL.
- How many pipettors of each range per lab or student group.
- Matching standard or filtered tips, and how many cases.
- Whether a stand or carousel for storing the pipettors should be included.

Supplier

Research Pipettors are supplied under the ScienceLab name by Jain Scientific Equipments Priva ors in Ind r list with C 3358
