Description :

Geared Student Clock (Product Code: SLE/MAT/59) is a geared practice clock used to develop children's time-telling skills in primary classrooms and maths labs. Hidden gears link its moveable hands, so turning the minute hand carries the hour hand accurately to the hours, and the bright colour hands are easy to read. **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, makes it at its own factory in Ambala, India.

Key Details

Parameter	Detail
Mechanism	Hidden gears maintain the correct hour and minute relationship as the hands are moved
Hour hand	Accurate to the hours with the movement of the minute hand
Hands	Moveable, bright colour clock hands, easy to read
Learning objective	Developing a child's time-telling skill
Product code	SLE/MAT/59
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Geared Student Clock Used For?

Because the gears keep both hands in step, the clock always shows a time that could really occur: at half past, the hour hand sits midway between two numbers, just as on a wall clock. Teachers call out a time, pupils set it on their own clocks, and a quick look around the room shows who has understood o'clock, half past and quarter times.

Once reading is secure, the same clock supports elapsed-time questions such as "what time will it be in three quarters of an hour?", with pupils turning the minute hand and watching the hour hand follow. It works well as part of a junior lab kit in primary school, where each child can hold and turn a clock rather than watching the teacher alone.

OEM Manufacturer

The Geared Student Clock is produced by Jain Scientific Equipments Private Limited, trading as ScienceLab, as the OEM (original equipment manufacturer). The clocks are made and assembled at the company's own licensed factory at Saha, Ambala, Haryana, India, so schools, dealers and importers buy from the maker rather than from a reseller. Repeat class sets can be ordered from the same source — ask us for current availability. Read more on our company profile.
