Description :

Sorting Ring (Product Code: SLE/MAT/61) is a foldable plastic circle ring used for grouping objects, teaching set theory and demonstrating Venn diagrams in school maths classrooms. The same rings serve learners from elementary to higher secondary level, from simple sorting by colour to overlapping sets. **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM and one of the educational laboratory equipment manufacturers based in Ambala, makes them at its own factory in India.

Key Details

Parameter	Detail
Material	Plastic
Form	Foldable circle rings
Uses	Grouping, set theory and Venn diagram demonstration
Class levels	Elementary to higher secondary
Product code	SLE/MAT/61
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Sorting Ring Used For?

In the lower classes, children place blocks, counters or picture cards inside a ring to form a group — all the red items, all the triangles — and discuss what belongs outside it. Overlapping two rings then shows items that share both properties, which is the first concrete picture of an intersection.

With older students the rings become a physical Venn diagram: two or three overlapping circles model union, intersection and complement, and help solve counting problems before the notation is introduced. Lay the rings on a large table or the floor and label each with a card. For many schools the Sorting Ring earns a place on the school lab instruments list for maths because one set covers so many class levels.

OEM Manufacturer

Jain Scientific Equipments Private Limited, known by its trading name ScienceLab, is the OEM (original equipment manufacturer) of the Sorting Ring. The rings are produced at the company's own licensed factory at Saha, Ambala, Haryana, India, and supplied directly to schools, colleges, institutions, dealers and importers. Buying from the manufacturer means repeat orders and replacement rings can be discussed with the same team — just ask us. Visit our company profile for background.
