Description :

Disposable Glass Serological Pipets (Product Code: SLE/ME/22) are sterile, single-use glass pipets used to measure and transfer small liquid volumes in microbiology, cell-culture and teaching laboratories. Technicians choose them when every transfer needs a fresh, plugged 10 x 0.1 mL pipet with a fire-polished tip and no washing afterwards. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a laboratory equipment supplier in India serving schools, colleges and research labs.

Specifications

Parameter	Detail
Type	Disposable glass serological pipet, plugged
Sterility	Sterile; each piece individually wrapped
Size	10 x 0.1 mL (10 mL, graduated in 0.1 mL divisions)
Calibration	Total capacity transfer by blow-out
Graduations	Negative graduations
Tip	Long, slender and tapered; fire-polished for burr-free, even flow rates
Wrapper	Easy-open pack, one side paper and one side plastic, printed with colour-coded sizes
Product code	SLE/ME/22
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Disposable Serological Pipets Used For?

Serological pipets are the standard tool for dispensing measured volumes of culture media, buffers, diluents and reagents where carry-over between samples must be avoided. Because each pipet arrives sterile in its own wrapper, a student or technician can open one, make the transfer and discard it, removing the washing and re-sterilising step that reusable glass pipets need.

Fit the plugged end to a pipette filler or controller (never pipette by mouth), draw the liquid slightly above the required mark and let it drain to the reading you need. The long, slender tip reaches into narrow tubes and flasks, and since these pipets are calibrated for blow-out, the last drop is expelled to deliver the full capacity. Peel the wrapper from the plugged end first so the tip stays covered until the moment of use.

Supplier

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, based in Ambala, Haryana. The company supplies sterile disposable pipets like these together with pipetting aids and general lab consumables to institutions, laboratories and dealers in India and international mark lying comp TIN 06AA
