Description :

Pipette Carousel Stand (Product Code: SLE/ME/25) is a rotating bench stand used to keep single-channel pipettes upright and within reach in teaching and research laboratories. It holds a set of 6 pipettes on a compact 6-1/4 in diameter base and turns through a full 360°, so anypipette can be brought to the front without reaching across the bench. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM laboratory equipment manufacturer inIndia, at its own factory in Ambala.

Specifications

Parameter	Detail
Capacity	6 single-channel pipettes
Base diameter	6-1/4 in
Rotation	Full 360°
Pipette fit	Universal design for a wide range of pipettes
Suitable for	Classrooms and research laboratories
Product code	SLE/ME/25
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is a Pipette Carousel Stand Used For?

Micropipettes are best stored upright between uses, so that liquid residue cannot run back into the shaft, and a pipette left lying on the bench is easily knocked, rolled off or mis-set. The carousel keeps a full working set of 6 in their holders, grouped however the user prefers, and a turn of the stand brings the next one round. It is common on biotechnology practical benches, shared school biology lab stations and research workbenches.

Arrange the pipettes in order of volume so students pick the right one first time, and return each pipette with its tip ejected. Many pipette users set adjustable pipettes to their highest volume before storing them to relax the internal spring. Where a class shares one set, the stand also makes it easy to check that all six pipettes are back at the end of a practical.

OEM Manufacturer

The Pipette Carousel Stand is an original ScienceLab product: Jain Scientific Equipments Private Limited, which trades as ScienceLab, is the OEM and makes it at its own licensed factory at Saha, Ambala, Haryana, India. Because the stand comes straight from the maker rather than through a trading intermediary, schools, colleges, dealers and importers deal directly with the people who produce it. Repeat orders and questions about replacement parts are handled by the manufacturer itself, so just ask us. Company background is on the ScienceLab profile page.
