Description :

Windup Meter Tapes (Product Code: SLE/ME/31) are fiberglass measuring tapes in a plastic windup case, stocked as school physics lab equipment in India and used to measure long distances in outdoor science, geography and sports-field activities. They are available in 10 m, 30 m and 50 m lengths, are calibrated in inches on one side and in 1 cm increments on the other, and the tape will not tear, rust or stretch. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, a source of educational laboratory equipment in India.

Specifications

Parameter	Detail
Tape	Fiberglass; will not tear, rust or stretch
Case	Plastic windup case
Lengths available	10 m, 30 m and 50 m
Graduations	Inches on one side; 1 cm increments on the other
Typical use	Outdoor activities
Product code	SLE/ME/31
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Are Windup Meter Tapes Used For?

Long tapes turn the school grounds into a laboratory. Classes use them to lay out a straight course for speed and reaction-time experiments, to run transect lines across a field or pond edge in ecology work, to map the grounds in geography, and to follow the changing length of a shadow through the day. Sports staff use the same tapes to mark out events.

Have a partner hold the zero end, keep the tape straight and taut rather than sagging, and read the 1 cm side for metric work. Before winding the tape back into its plastic case, wipe off mud, sand or grass so the mechanism stays free, and wind in slowly to avoid twists.

What to Specify When Ordering

- Length: 10 m, 30 m or 50 m, or a mix for different activities.
- Number of tapes per class or field group.
- Companion tools for shorter measurements, such as a fiberglass tape measure or metre sticks.
- Delivery location and whether the order is for a tender or for dealer stock.

Supplier

Jain Scientific Equipments Private Limited, trading as ScienceLab from Ambala in Haryana, sources these windup tapes and supplies all three lengths to schools, colleges, field-study programmes and dealers in India and international markets. Combining them with other meas
