Product Name :

Colour Tile

Product Code :

SLE/MAT/75

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Colour Tile (Product Code: SLE/MAT/75) is a set of multicoloured plastic square tiles used to teach area, perimeter, counting and patterns in school maths lessons. Teachers from pre-primary to middle school use the tiles because one versatile set covers colour recognition, sorting,number operations and measurement of shapes. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of mathematics lab kits in India, at its own factory in Ambala.

Key Details

Parameter	Detail
Material	Plastic
Tile shape	Square
Colours	Multicoloured
Main topics	Area and perimeter
Other concepts	Colour recognition, sorting, counting, patterns, number operations
Tile size and quantity	Not listed in the product description — ask us
Product code	SLE/MAT/75
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Are Colour Tiles Used For?

Square tiles make area and perimeter visible. A pupil builds a rectangle, counts the tiles inside it to find the area in square units, then counts the tile edges around the outside for the perimeter. Rearranging the same tiles into a new shape shows that two figures can share an area yet have different perimeters — a discovery that stays with children far longer than a formula alone.

Younger children start with the colours: naming them, sorting tiles into groups, counting each group and continuing repeating patterns. As skills grow, the tiles become counters for addition and subtraction and rows-and-columns arrays for early multiplication, so a single set of these mathematics lab kits serves several years of the curriculum.

OEM Manufacturer

Colour Tiles are made by ScienceLab, the trading name of Jain Scientific Equipments Private Limited, which is the OEM (original equipment manufacturer) of this maths manipulative rather than a reseller. Production takes place at the company's own licensed factory at Saha, Ambala, Haryana, India, and schools, NGOs, distributors and importers buy directly from that factory. Extra tiles for classroom sets and repeat orders are handled by the manufacturer itself — just ask us. Company details are on the ScienceLab profile.
