Description :

Bottle McCARTNEY, BIJOU (Product Code: SLE/CH/36) is a small narrow-mouth bottle for culture media and vaccines, sealed with an aluminium screw cap and a rubber liner.Microbiology, pathology and teaching labs use it to hold agar slopes, broths, sera and smallreagent volumes in a closed, labelled container. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, and is a practical culture media bottle for laboratories, offered inthree sizes as part of its chemistry lab equipment in India.

Specifications

Parameter	Detail
Application	Media and vaccine bottle
Mouth	Narrow mouth
Cap	Aluminium screw cap
Seal	Rubber liner
Capacity	7 ml; 14 ml; 28 ml

Typical Use

The name joins two long-established laboratory bottle styles: the small Bijou and the larger McCartney. In a microbiology lab, molten agar is dispensed into the bottles, which are then laid at an angle to set as slopes for maintaining stock cultures; the screw cap limits drying out during storage far better than a cotton plug. The smallest 7 ml bottle suits single-use aliquots of media or serum, the 14 ml size holds a working slope, and the 28 ml bottle takes larger broth or diluent volumes.

Label every bottle with its contents and date before filling, and keep the rubber liner seated inside the cap so the seal stays effective. When preparing media, fill the bottles through a funnel or dispenser to keep the neck clean, and tighten the caps fully only once the contents have cooled. Handled this way, the bottles are a dependable part of the microbiology lab equipment used in Indian colleges and diagnostic labs.

Manufacturer

Jain Scientific Equipments Private Limited runs the ScienceLab brand from Ambala, Haryana, making laboratory bottles, glassware and teaching apparatus for institutions. Read about the company on the company profile.

Related Chemistry Lab Equipment

Other items used when preparing and storing media:

- Petri Dish Glass With Lid — plates for sub-culturing organisms kept on slopes.
- Universal Bottle Pp Cap — a larger screw-cap bottle with a polypropylene cap.
