Description :

Rubber Cork (Product Code: SLE/CH/47) is a tapered stopper in soft, solid red rubber for closing test tubes, flasks and bottles and for carrying glass tubing into sealed apparatus. The rubber resists acid, alkali and ammonia, and the corks are offered with one hole or with two holes in a wide series of sizes. Chemistry teachers and lab technicians looking for a dependable rubber stopper for lab work in India use them to build gas generators, distillation set-ups and wash bottles. They are supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Material	Solid, soft rubber
Colour	Red
Resistance	Acid, alkali and ammonia
Bore options	With one hole; with two holes
Size range	Top diameter from 9.0 mm to 60.0 mm (full list below)

Available sizes (all dimensions in mm):

Top Dia (mm)	Bottom Dia (mm)	Height (mm)
9.0	6.0	16.0
13.0	9.0	15.5
14.0	11.0	18.5
16.5	13.0	20.0
19.0	14.0	21.0
21.0	15.0	22.0
22.5	17.5	23.0
24.5	20.0	24.0
26.0	20.0	27.5
26.0	21.0	27.5
28.0	21.5	31.5
30.0	26.0	33.0
33.5	30.0	33.5
34.5	30.0	34.5
38.5	31.0	37.0
