Description :

Universal Multi Rack (Product Code: SLE/CH/73) is a single rack that holds four different test tube sizes, so narrow tubes, standard tubes and wide tubes can share one compact footprint on the bench or in a cupboard. It is made from thick, sturdy plastic and designed for efficient storage. The rack is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, and is a practical test tube rack for school labs in India and international markets where mixed tube sizes are in daily use.

Specifications

Parameter	Detail
Material	Thick, sturdy plastic
Tube sizes held	Four different sizes
12 mm dia. tubes	40 places
15 mm outer dia. tubes	24 places
20 mm dia. tubes	20 places
50 mm dia. tubes	8 places
Dimensions	100 mm L x 95 mm W x 115 mm H
Design	Compact, for efficient storage

Typical Use

Most practicals use more than one kind of tube — small tubes for spot reactions, standard test tubes for qualitative tests, larger tubes for heating or culture work. Instead of setting out several racks, one Universal Multi Rack keeps the whole set together, which frees bench space and makes it easier to see at a glance whether every tube has been returned after class.

The 40 small positions suit a full set of narrow tubes for a class demonstration, while the eight large positions take wide tubes or small bottles. Place the rack on a level surface away from the burner, and let hot tubes cool a little before standing them in the plastic. Labs that buy from a lab plastic ware supplier in India often pair it with single-size racks for bulk tube storage.

Manufacturer

ScienceLab is a brand of **Jain Scientific Equipments Private Limited**, registered with the Ministry of Corporate Affairs under CIN U29309HR2020PTC087597. The company manufactures laboratory and educational apparatus at its licensed factory in Saha, Ambala, Haryana, which holds Factory Licence AMB-ONLINE-CHD-J-414. Our company profile has further details.
