Description :

Polypropylene Conical Flask with Screw Cap (Product Code: SLE/P/32) is a wide-neck Erlenmeyer flask made of polypropylene with a PP screw cap, used to mix, store and carry solutions in school, college and research laboratories. It is offered in five capacities from 50 mL to 1000 mL, giving a lightweight plastic alternative to glass conical flasks for routine work. The flask is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and laboratory equipment supplier in India, at its own factory in Ambala.

Specifications

Parameter	Detail
Type	Conical (Erlenmeyer) flask, wide neck
Material	Polypropylene (PP)
Closure	PP wide screw cap
Capacities	50 mL, 100 mL, 250 mL, 500 mL, 1000 mL
Product code	SLE/P/32
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Polypropylene Conical Flask Used For?

The conical shape lets you swirl a solution vigorously without splashing, which is why Erlenmeyer flasks are standard for titrations, dissolving solids and mixing reagents. This version adds a screw cap, so the same flask can also store a prepared solution or carry it to another room with the cap closed. A wide neck makes filling, cleaning and adding solids easier than with a narrow-neck flask.

Polypropylene flasks are a sensible choice for younger students and field work, where dropped glassware is a real risk. Keep them away from open flames and hot plates set at high temperatures, and use glass flasks when strong heating is needed. When buying conical flasks for school practicals in India, it helps to keep a plastic set for handling and storage and a glass set for heating.

What to Specify When Ordering

- The capacity or capacities you need: 50, 100, 250, 500 or 1000 mL.
- The quantity of each capacity per lab or per student group.
- Whether you also want the glass Conical Flask with Screw Cap quoted for heating work.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM of the Polypropylene Conical Flask with Screw Cap. All five capacities come from the company's own licensed factory at Saha, Ambala, Haryana, which means a mixed order of different sizes can be quote
