Description :

Human Skeleton (Product Code: SLE/A/01) is a miniature plastic skeleton model used to give students a close-up view of the bones of the human body on the classroom bench. Its axial skeleton is coloured blue and its appendicular skeleton white, so learners can tell the twodivisions apart at a glance; the skull cap lifts off, the jaw is hinged and the joints are articulated. Itis manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer,at its own factory in Ambala, India.

Key Details

Parameter	Detail
Scale	Miniature skeleton
Material	Plastic
Colour coding	Axial skeleton in blue; appendicular skeleton in white
Skull	Removable skull cap; hinged jaw
Joints	Articulated
Mounting	Rod-mounted on a base
Product code	SLE/A/01
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Miniature Human Skeleton Used For?

The colour coding makes this model a quick way to teach the two main divisions of the skeleton: the axial skeleton (skull, vertebral column, ribs and sternum) in blue, and the appendicular skeleton (shoulder and hip girdles and the limbs) in white. Being a miniature, it can sit on a bench or desk, so a small group can examine the bones close up instead of viewing a large model from across the room.

Lift off the skull cap to show the cranial cavity, open the hinged jaw when discussing chewing, and move the articulated joints to compare different types of joint movement. Among biology lab equipment in India for secondary schools, it works well at revision stations where students label bones against a diagram.

OEM Manufacturer

ScienceLab, the trading name of Jain Scientific Equipments Private Limited, is the OEM behind this miniature Human Skeleton and makes it at the company's own licensed factory at Saha, Ambala, Haryana, India. Schools, colleges, dealers and importers buy it direct from the maker, which keeps quotations simple; replacement parts such as a lost skull cap can be discussed with the manufacturer — ask us.
