Product Name :

Conductive Putty

Product Code :

SLE/PHY/38

Description :

The kit contains a 60mm long and 20mm in diameter cylinder which has a resistance of approximately 20 Ω . Can readily be connected into an electrical circuit and both length and diameter can easily be altered by 're-molding' the putty. Conducting putty is a useful aid to teaching resistivity and the relationship between length and cross-sectional area on resistance. Approx 100g.
