Product Name :

Female Skeletal Pelvis

Product Code :

SLE/A/06

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Female Skeletal Pelvis (Product Code: SLE/A/06) is an approximately life-sized plastic model of the female bony pelvis used to teach pelvic anatomy and the birth canal in midwifery, nursing, obstetrics and biology classes. It comes unmounted, so it can be held and turned freely, and an included key identifies 36 labelled structures. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of human anatomical models, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Type	Female skeletal pelvis
Material	Plastic
Scale	Approximately life-sized
Mounting	Unmounted
Labelled structures	36, identified on the included key
Product code	SLE/A/06
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Female Skeletal Pelvis Used For?

The female pelvis is shaped for childbirth, and that makes it one of the most practical models in a midwifery or obstetrics classroom. Because it is unmounted, a tutor can hold it at the angle it sits in the body and show the pelvic inlet, cavity and outlet through which a baby passes during labour. Students use the key to find the 36 labelled structures, then relate landmarks they can see on the model to the ones used in clinical assessment.

In general biology and anatomy classes, the female pelvis is best taught next to a male one: the wider, shallower shape and broader angle below the pubic bones become obvious when the two are compared on the bench. Adding both to a human biology model set gives students a hands-on way to learn how skeletal remains can indicate sex.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM (original equipment manufacturer) of the Female Skeletal Pelvis and produces it at its own licensed factory at Saha, Ambala, Haryana, India.

Midwifery schools, nursing colleges, dealers and importers are supplied factory-direct, and orders for matching pelvis models can be placed with the same manufacturer. More information is on our company profile.
