What Are Household Latex Gloves Used For?

In a school or college lab, household latex gloves are the everyday choice for washing glassware after a practical, wiping down benches, cleaning sinks and handling diluted detergent. Caretaking, canteen and hostel staff use the same gloves for routine cleaning, which is why a box of 12 pairs is a convenient way to stock a department.

The fishscale pattern helps hold wet beakers and slippery surfaces, and the flock lining makes the gloves easier to wear for longer spells. If gloves are reused, rinse the outside after work and let them dry away from direct heat. Anyone with a latex sensitivity should use a latex-free glove instead, and concentrated chemicals call for a dedicated chemical-resistant glove.

Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited of Ambala, Haryana. The company manufactures these household latex gloves by the box for school labs, hostels, canteens and cleaning teams, and can add them to a wider order of lab consumables and equipment.
