Description :

Gripper Glove (Product Code: SLE/G/09) is a coated work glove used to hold tools, components and materials securely during workshop, maintenance and practical lab tasks. It is a seamless polyester/cotton glove in size 8 with a flexible latex coating that gives excellent grip while staying comfortable through a long session. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, for schools, training institutes and workshops.

Specifications

Parameter	Detail
Glove base	Seamless polyester/cotton glove
Coating	Flexible latex coating
Size	8
Key benefit	Excellent grip with exceptional comfort
Product code	SLE/G/09
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Gripper Glove Used For?

Gripper gloves suit the hands-on jobs found in engineering, vocational training and school workshop labs: carrying sheet material, assembling apparatus, tightening clamps and stands, fitting parts in a carpentry or fitting shop, and moving boxes in a store room. The latex-coated surface stops components slipping, and the soft polyester/cotton base keeps fingers flexible enough for small parts.

Match the glove to the task. The Gripper Glove is a grip-and-comfort glove, so hot work, sharp edges and chemical handling need a welding, leather-palm or chemical-resistant glove instead. Latex coatings are not meant for oils or solvents, and a glove with a worn or cracked coating should be replaced.

Supplier

The Gripper Glove comes to you through Jain Scientific Equipments Private Limited, better known by its trading name ScienceLab, based in Ambala, Haryana. We source it for technical institutes, school workshops and maintenance teams, and it can be quoted with other workshop and lab items in one enquiry. Our company profile explains who we are and the range we cover for India and international markets.

Related Gloves & Face Masks

Gloves and workshop items to consider alongside the Gripper Glove:

- Riggers Glove — a heavier work glove for rougher handling.
- Cotton Backed Chrome Glove — leather-palm option for abrasive materials.
