Description :

Human Micro Sexless Torso Model (Product Code: SLE/A/11) is a desk-sized torso that packs removable organs, exposed right-side musculature and a partly opened head into a model only26 cm across its longest side. Because it is small enough to pass around a group, it suits middleand secondary school classes, coaching centres and home-study tutors who want a hands-onhuman body model, as school biology lab equipment in India, without the storage demands of afull-size torso. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)** inAmbala and comes on a blue base with a numbered, laminated key.

Specifications

Parameter	Detail
Type	Miniature sexless torso
Size (with base)	10-1/4 x 5 x 3-1/4 in (26 x 12.7 x 8.3 cm)
Base	Blue base
Exposed structures	Musculature on the right side of the body; right side of the brain; bones of the face
Removable organs	Lungs, heart, liver, stomach and intestines
Key	Numbered, laminated key identifying 27 anatomical features and11 major muscles

Typical Use

The small format changes how the model is used: rather than one teacher demonstrating at the front, several models can circulate so each group lifts out the lungs, heart, liver, stomach and intestines, names them from the key and then reassembles the torso in the right order. That reassembly step is a quick check of whether students understand where each organ sits and which organs overlap. The exposed right-side muscles and facial bones give a second activity once the organ work is done.

For school biology lab setups in India covering life processes, the model supports lessons on digestion, breathing and circulation in a single session. It also travels easily for science exhibitions and outreach visits. Keep the removable organs together in a small tray during class so none are misplaced.

Manufacturer

The model is made by Jain Scientific Equipments Private Limited, trading as ScienceLab from Ambala, Haryana. It is a registered MSME with manufacturing as its major activity (Udyam UDYAM-HR-01-0003714), and overseas orders are shipped under its Importer-Exporter Code AAECJ8618A issued by the DGFT. See the company profile for more.
