Product Name :

Component Holder

Product Code :

SLE/PHY/40

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Component Holder (Product Code: SLE/PHY/40) is a pack of mounted clips used to hold components steady during physics investigations in school and college laboratories. Each pack contains 8 mounted clips, so one bench group can keep several parts of a set-up in position at once — a simple but useful item of physics lab equipment for schools in India. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer and physics instruments supplier in India, at its own factory in Ambala.

Key Details

Parameter	Detail
Product type	Mounted clips for holding components
Pack quantity	8 mounted clips per pack
Application	Physics investigations; usable across a variety of experiments
Product code	SLE/PHY/40
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Component Holder Used For?

Students use the Component Holder to grip a small part so it stays exactly where it is needed while the rest of the experiment is connected, observed or measured. In bench circuit work, for example, a held component no longer slides about when leads are clipped on, so meter readings stay steady and the layout on the bench matches the circuit diagram.

Because the clips are mounted rather than loose, they stand on the bench and can be arranged in a line or grid for series and parallel investigations, which makes them a handy addition to any electricity experiment kit at school level. A practical tip: give each group one pack of 8 and return the holders to a labelled tray after the lesson so the clips are not bent by heavier apparatus in storage.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM (original equipment manufacturer) of the Component Holder. The holders are made at the company's own licensed factory at Saha, Ambala, Haryana, India, and supplied factory-direct to schools, colleges, institutions, dealers and importers instead of passing through a trader.

The company is incorporated under CIN U29309HR2020PTC087597, and its production site at 449, HSIIDC Industrial Area, Saha, Ambala operates under Factory Licence AMB-ONLINE-CHD-J-414. For repeat packs or replacement holders, ask us directly — you deal with the manufacturer itself. Read more on our company profile.
