Product Name :

Safety Face Mask

Product Code :

SLE/MK/03

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Safety Face Mask (Product Code: SLE/MK/03) is a white non-woven face mask with a polypropylene melt-blown filter layer, used to filter everyday particulate pollution such as pollen and PM2.5 dust for staff, students and field workers. Its distinguishing feature is the adjustableear rope, which can be moved to the right position for each face size so one standard mask fits a range of wearers. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a laboratory equipment supplier in India.

Specifications

Parameter	Detail
Main material	Non-woven fabric with polypropylene melt-blown layer
Size	Standard
Wearing method	Ear hook
Ear rope	Adjustable to the appropriate position according to face size
Colour	White
Stated protection range	Particulate pollution in daily environments, such as pollen andPM2.5; the listing also describes it as helping to isolate bacteria andviruses
Period of use (aslisted)	3 years — ask us to confirm how this applies (for example, storage of unused masks) for the batch you are quoted
Product code	SLE/MK/03
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Safety Face Mask Used For?

The Safety Face Mask is meant for days when the air carries fine particles: pollen season, dusty campus grounds, outdoor environmental-science sampling, store-room clearing or workshop areas next to a lab. Melt-blown polypropylene is the fine-fibre layer that does most of the particle filtering in this type of mask, while the outer non-woven fabric protects it and keeps it comfortable on the skin.

Before use, slide the adjustable ear rope until the mask sits flat against the cheeks with no gaps at the sides, then check that it covers the nose and chin. A snug fit matters more than tightness. Where eyes also need protection from dust or splashes, pair the mask with goggles, and keep spare masks at hand so a soiled one can be swapped straight away.

Manufacturer

This mask is supplied, not made, by Jain Scientific Equipments Private Limited, which trades as ScienceLab from Ambala, Haryana. The company manufactures personal protective items like this one so that schools, colleges, laboratories and resellers can buy them on the same order as their
