Description :

Particulate Protective Face Mask, Melt-Blown (Product Code: SLE/MK/04) is a bowl-shaped, head-mounted particulate mask used to protect the wearer from airborne dust and fine particles in laboratories, workshops and stores. It is listed at FFP2 protection level and combines mechanical and electrostatic filtration with a fabric headband, adjustable buckle and aluminium nose clip for a close seal. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a lab consumables supplier in India.

Specifications

Parameter	Detail
Protection level (as listed)	FFP2
Filter	Mechanical and electrostatic filter (melt-blown)
Shape	Bowl-shaped (cup) cover
Wearing	Head-mounted
Headband	Natural fabric headband with adjustable buckle
Nose clip	Aluminium bar clip
Size	Standard
Product code	SLE/MK/04
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Particulate Protective Face Mask Used For?

This mask is chosen for work that raises more dust than an ordinary 3-ply mask is meant for: sieving soils and powders, sanding and cutting in a technical workshop, clearing dusty stores, or handling dry specimens and plaster. FFP2 is a European filtering-facepiece protection class for particles, and the melt-blown filter works in two ways, trapping particles in its fibre web and attracting finer ones with an electrostatic charge.

The cup shape stands away from the lips, which makes breathing and speaking easier during long tasks. To fit it, place the cup over the nose and chin, bring the fabric headband over the head, tighten the buckle until the edges seal, and press the aluminium clip to the shape of the nose bridge. It filters particles only, so it should not be used against gases or solvent vapours.

Manufacturer

Jain Scientific Equipments Private Limited trades as ScienceLab and is based in Ambala, Haryana. It manufactures this particulate mask as a protective item for technical institutes, laboratories, schools and dealers, and can quote it with coveralls, gloves and eye protection for buyers in India and international markets. The company profile gives more background.
