Description :

Human Brain Model, 15 Parts (Product Code: SLE/A/36) is a life-size dissectible brain used to teach the detailed internal anatomy of the human brain, including the ventricles and the complete brain stem, in medical, nursing and neuroscience courses. It measures 23 x 15 x 18 cm and comes with a numbered key for identifying each structure. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer of human anatomical models, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Parts	15, dissectible
Scale	Life size
Size	23 x 15 x 18 cm
Internal anatomy	Detailed internal anatomy of the human brain
Ventricles	Brain ventricles shown
Brain stem	Complete brain stem shown
Key	Numbered key included
Product code	SLE/A/36
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the 15-Part Human Brain Model Used For?

This is the model to choose when the syllabus reaches the inside of the brain. Taking it apart layer by layer, students can follow the ventricles, the fluid-filled spaces that produce and carry cerebrospinal fluid, and see how they sit among the deep structures of each hemisphere. The complete brain stem allows the connection between the cerebrum, cerebellum and spinal cord to be traced without switching models, which is valuable for neurology and neuroanatomy practicals.

With 15 parts, it rewards a structured approach: dismantle in a fixed order, lay the parts out on a tray, name each numbered structure from the key, and reassemble in reverse. Counting the parts at the end of each session prevents losses. Many anatomy departments keep it as the advanced model in a graded collection of biology lab equipment, alongside simpler brains used for introductory teaching.

OEM Manufacturer

ScienceLab builds this 15-part brain as its OEM (original equipment manufacturer). Jain Scientific Equipments Private Limited, the company behind the **ScienceLab** name, makes and assembles it at its own licensed factory at Saha, Ambala, Haryana, India.
