Description :

Non-Disposable Face Mask (Product Code: SLE/MK/06) is a white, cup-shaped ear-loop face mask built from melt-blown fabric, PP nonwoven and an active-carbon layer, used in medical, pharmaceutical, laboratory and industrial work. It is listed with a bacterial filtration efficiency (BFE) above 99%, and the carbon layer sets it apart from plain 3-ply masks. It is manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, India, a laboratory equipment supplier in India.

Specifications

Materials	Melt-blown fabric, PP (polypropylene) nonwoven, active carbon
Style	Cup-shaped nonwoven face mask with ear loops
Bacterial filtration efficiency (BFE)	Above 99%
Colour	White
Application	Medical and surgical, pharmaceutical, laboratory and industrial sectors
Type	Reusable face covering
Product code	SLE/MK/06
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Non-Disposable Face Mask Used For?

The mask covers a wide set of workplaces: hospital and clinic duties, tablet and powder handling in pharmaceutical units, routine bench work in teaching and testing laboratories, and dusty industrial tasks. Its cup shape keeps the fabric away from the mouth, which many wearers find more comfortable over a long shift, and it makes a useful standard item in a pharmacy lab setup in India where students handle powders.

Active carbon is commonly added to masks to help reduce odours, and the BFE figure describes how well the material held back a bacterial aerosol in testing. Because the name marks this mask as non-disposable, ask us for the care and reuse guidance that applies to the batch you are quoted, and replace any mask that is damaged, soiled or no longer fits closely.

Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, manufactures this Non-Disposable Face Mask in Ambala, Haryana, as a protective item. Pharmacy colleges, hospitals, industrial training institutes and distributors can combine it with gowns and gloves in a single quotation for delivery in India and international markets.
