Product Name :

Burettes with Schellbach Stripe

Product Code :

SLE/GBu/09

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Burettes with Schellbach Stripe (Product Code: SLE/GBu/09) are graduated, heavy-duty borosilicate glass burettes fitted with a traditional glass key stopcock and a Schellbach stripe for accurate meniscus reading. With glass for both the body and the key, they appeal to laboratories that prefer a conventional all-glass burette while still wanting the clearer reading the stripe provides. They are manufactured by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**,Ambala, among its borosilicate laboratory glassware in India and for international markets.

Specifications

Parameter	Detail
Reading feature	Schellbach stripe for accurate meniscus reading
Stopcock	Glass key
Material	High-quality, heavy-duty borosilicate glass
Capacity options	5 ml, 10 ml, 25 ml, 50 ml, 100 ml
Scale	Graduated
Properties	Heat resistant; chemical resistant
Used in	Chemical laboratories

Typical Use

This burette is used for standard volumetric titrations — neutralisation, precipitation and redox methods — in school and college chemistry. Used with an acid base indicator kit, it lets students follow the colour change while the stripe gives a crisp reference point at the meniscus for each reading. Fill it with the help of a small funnel, then remove the funnel before titrating so drops from its stem do not alter the level.

A glass key needs a little care. Apply only a very thin film of stopcock grease to the key, keeping it clear of the bore, and wipe off any excess. After use, rinse the burette and, before storage, remove the key or place a thin strip of paper between key and barrel so the ground surfaces cannot stick together.

Manufacturer

ScienceLab burettes are made by **Jain Scientific Equipments Private Limited**, headquartered in Ambala, Haryana, India. Trading as **ScienceLab**, the company produces a broad catalogue of laboratory glassware and apparatus for education and research. Full company information is on the company profile page.
