Product Name :

Human Larynx, Trachea, and Bronchi Model

Product Code :

SLE/A/82

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Human Larynx, Trachea, and Bronchi Model (Product Code: SLE/A/82) is a slightly enlarged model of the upper and middle airway, mounted on a stand with base, that follows the airpassage from the larynx down the trachea into the bronchial tree and its individual segmentbronchi. The thyroid gland and associated muscles are included, and the model dissects into 2parts. It is used in respiratory system teaching at senior school, nursing, paramedical and medicallevel, and is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala.

Specifications

Parameter	Detail
Scale	Slightly enlarged
Mounting	On stand with base
Dissectible into	2 parts
Size	20 x 18 x 39 cm H
Structures shown	Thyroid gland and muscles; trachea with bronchial tree; individual segment bronchi

Typical Use

The model is built for lessons on the conducting zone of the respiratory system. Starting at the larynx, a teacher can point out the relationship of the thyroid gland to the airway, then follow the trachea to its division and on into the branching bronchial tree. Showing the individual segment bronchi helps students understand why the lungs are described in segments, a point that matters later in physiology, radiology and clinical subjects.

Standing upright on its base at 39 cm tall, it can be placed on a demonstration table and turned so every group sees the branching pattern. Colleges that are setting up biology lab equipment in India for nursing or paramedical courses often place it next to a full lung model so the airway and the lung tissue can be discussed together.

Manufacturer

Jain Scientific Equipments Private Limited, incorporated under CIN U29309HR2020PTC087597, makes this airway model and trades as **ScienceLab**. The company works from Ambala, Haryana, where production is carried out at its licensed factory at 449, HSIIDC Industrial Area, Saha (Factory Licence AMB-ONLINE-CHD-J-414).
