Product Name :

Pathology of the Human Lung Model

Product Code :

SLE/A/94

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Pathology of the Human Lung Model (Product Code: SLE/A/94) is a 1-part, 2/3x life-size model used to teach how microbial infections damage the lung in medical, nursing and paramedical colleges. Lung abscess, pneumonia and tuberculosis are each shown separately with a realistic representation of their morphology on a compact 11 x 11 x 11 cm model with stand and base. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Scale	2/3x life size
Size	11 x 11 x 11 cm
Construction	1-part model
Mounting	On stand with base
Pathologies shown	Lung abscess, pneumonia and tuberculosis (caused by microbial infections)
Presentation	Each pathology shown separately with a realistic representation of its morphology
Product code	SLE/A/94
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Lung Pathology Model Used For?

In a pathology or microbiology lecture, the model lets the tutor move from the organism to the damage it causes: a localised lung abscess, the consolidated tissue of pneumonia and the lesions associated with tuberculosis. Seeing all three on one piece helps students recognise how different infections look and why they are managed differently. It is equally useful in community-health sessions where tuberculosis awareness is part of the programme.

Its small footprint makes it easy to pass round a tutorial group or to place at a practical station beside a healthy lung model, which is the most effective way to teach disease against normal anatomy. Colleges adding pathology pieces to their biology lab equipment in India often start with a respiratory model like this one. Handle it by the base and clean it with a dry, soft cloth.

OEM Manufacturer

ScienceLab is the trading name of Jain Scientific Equipments Private Limited, the OEM (original equipment manufacturer) that makes this pathology model at its own licensed factory at Saha, Ambala, Haryana, India. For vendor files, the company's MSME registration is Udyam UDYAM-HR-0
