Product Name :

Sheep Skull, Plastic

Product Code :

SLE/A/114

Email : sales@scilabexport.com
Phone: +91-7082934803

Description :

Sheep Skull, Plastic (Product Code: SLE/A/114) is a plastic replica of a sheep skull, complete with mandible, used for comparative anatomy and herbivore-adaptation lessons in zoology, veterinary and school biology labs. It is faithfully reproduced and anatomically accurate, featuring almost all the detail found in natural bone without the preparation a real skull needs. It is made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Key Details

Parameter	Detail
Species	Sheep
Material	Plastic
Mandible	Included (complete with mandible)
Detail	Almost all the detail found in natural bone
Accuracy	Faithfully reproduced and anatomically accurate
Product code	SLE/A/114
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Is the Plastic Sheep Skull Used For?

Setting a sheep skull beside a human skull is one of the clearest ways to show how diet and lifestyle shape anatomy. Students notice the long face, the eye sockets placed at the sides of the head for a wide field of view, and the long gap between the front of the jaws and the cheek teeth. They can then examine the broad, ridged cheek teeth used for grinding plants, and see that a sheep has no upper incisors, cropping grass against a firm dental pad instead.

In college practicals it serves as zoology lab equipment in India for mammalian skull identification, and in introductory veterinary and animal-husbandry anatomy it gives students a reference skull they can handle freely. A useful exercise is to have groups draw up a two-column table of differences between the sheep and human skulls, then explain each difference in terms of feeding and senses.

OEM Manufacturer

Jain Scientific Equipments Private Limited, whose trading name is ScienceLab, is the OEM (original equipment manufacturer) of this sheep skull replica and makes it at its own licensed factory in Saha, Ambala, Haryana, India. Zoology departments, veterinary and agricultural colleges, schools, dealers and importers are served factory-direct rather than through a distributor chain.
