Description :

Magnetic Wands (Product Code: SLE/MG/22) are brightly coloured magnetic wands used by young children to pick up, sort and move magnetic items during early science and number activities. Each pack contains six 190 mm wands — one each in red, blue, green, yellow, orange and purple — designed to be used with metallic chips and magnetic marbles as part of a hands-on science kit for primary school. They are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Pack contents	6 magnetic wands
Colours	1 each of red, blue, green, yellow, orange and purple
Dimensions	190 mm
Used with	Metallic chips and magnetic marbles
Product code	SLE/MG/22
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Are Magnetic Wands Used For?

Magnetic wands give small hands an easy way to explore what a magnet will and will not pick up. Spread a mix of metallic chips, magnetic marbles and everyday classroom objects on a tray, and let children test each one, sorting the finds into "attracted" and "not attracted" piles. They can then try picking items up through a sheet of paper or the side of a plastic cup, and discover that magnetism works through some materials.

Because every wand in the pack is a different colour, six children or groups can each have their own, which makes turn-taking and group roles simple. Wands also bring counting into science: how many chips can you lift at once, and which wand collected the most? Keep the wands away from computers and bank cards, and store them in their pack after use.

OEM Manufacturer

Jain Scientific Equipments Private Limited, known by its trading name ScienceLab, manufactures the Magnetic Wands as the OEM at its own licensed factory at Saha, Ambala, Haryana, India. Schools, nurseries, dealers and importers can buy from the maker itself, with no trading layer in between.

For extra packs or a repeat order for more classrooms, ask us — the manufacturer handles these requests directly. You can read about the company on our company profile.
